THE BROKEN CAMP

SOLO DEVELOPER · UE 5.7

Third-person military shooter built solo. Level design centered on player guidance through environmental storytelling, layered combat encounters, and a fully greyboxed-to-final pipeline, built around gameplay systems designed first.

UE5 · Blueprint · Level Design · Gameplay & AI · Playtesting

GAUNTLET MANIA

GAMEPLAY PROTOTYPE · UE5

A fast-paced arena combat prototype built with Blueprints. Directional combat, cinematic finishers, dynamic camera work, and layered visual and audio feedback.

UE5 · Blueprints · Combat System · Game Feel

THE BOYS: ASCENT

FREELANCE · UE5

Joined to develop Homelander's gameplay systems, optimize the City Sample map, and help with level design where needed. The project has since been completed and shipped.

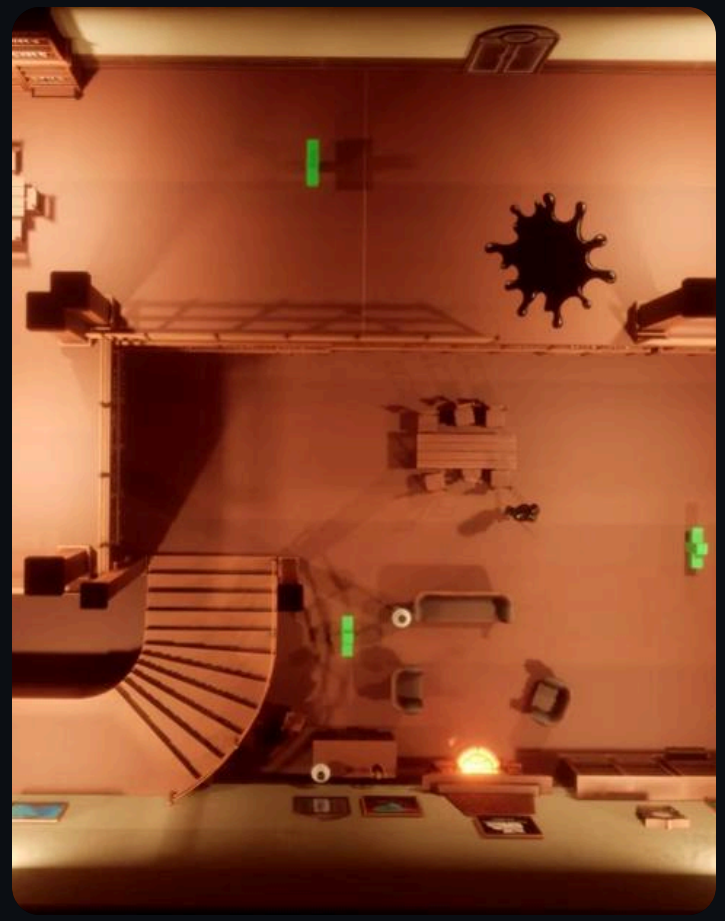

UE5 · Blueprints · Level Design · Optimization

KNIGHT FIGHT

UNIVERSITY TEAM PROJECT · UE5

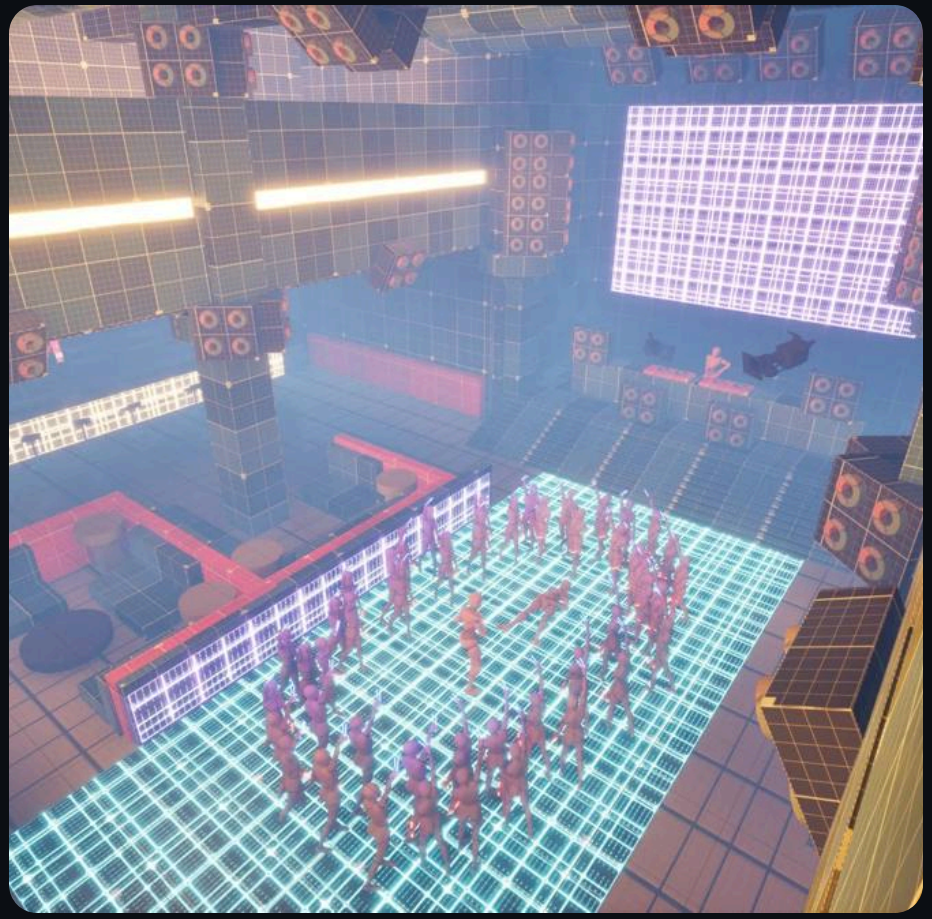

Players battle as ghostly knights inside a Victorian mansion, using traps, health pickups, and ragdoll physics to knock each other out. Mainly level design, gameplay systems, lighting and environment setup.

UE5 · Blueprint · Level Design · Multiplayer

NIGHTCLUB FIGHT ARENA

FREELANCE · STUDIO CLIENT · UE5

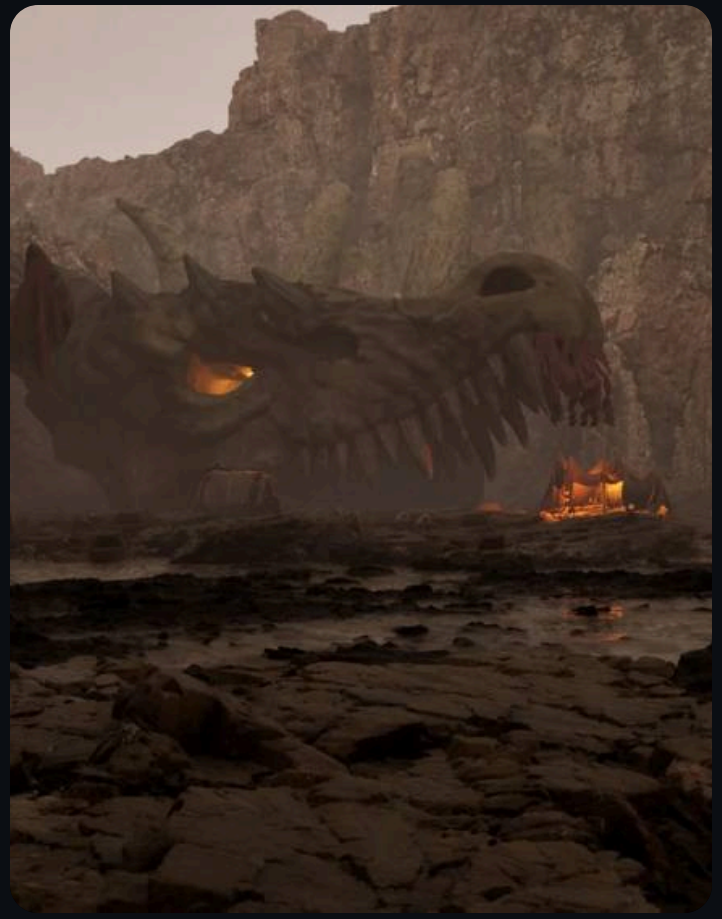

A nightclub combat arena from blockout to final environment using Fab assets. Level layout, environment art, set dressing, lighting, optimisation and polish.

UE5 · Modular Assets · Level Design · Optimization

BOSS ARENA

O-SENS STUDIO · UE5

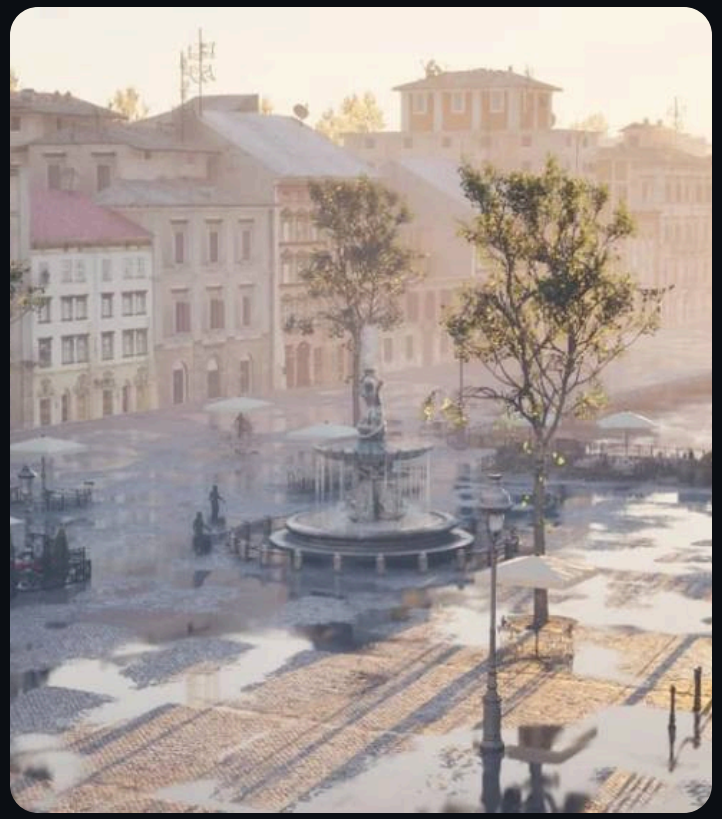

A boss combat arena built for an in-development title, from blockout to final environment with Quixel Megascans, shaping the space around the encounter and matching the game's visual style.

UE5 · Level Design · Environment Art

EUROPEAN TOWN (CINEMATIC)

FREELANCE · CANADIAN CLIENT · UE5

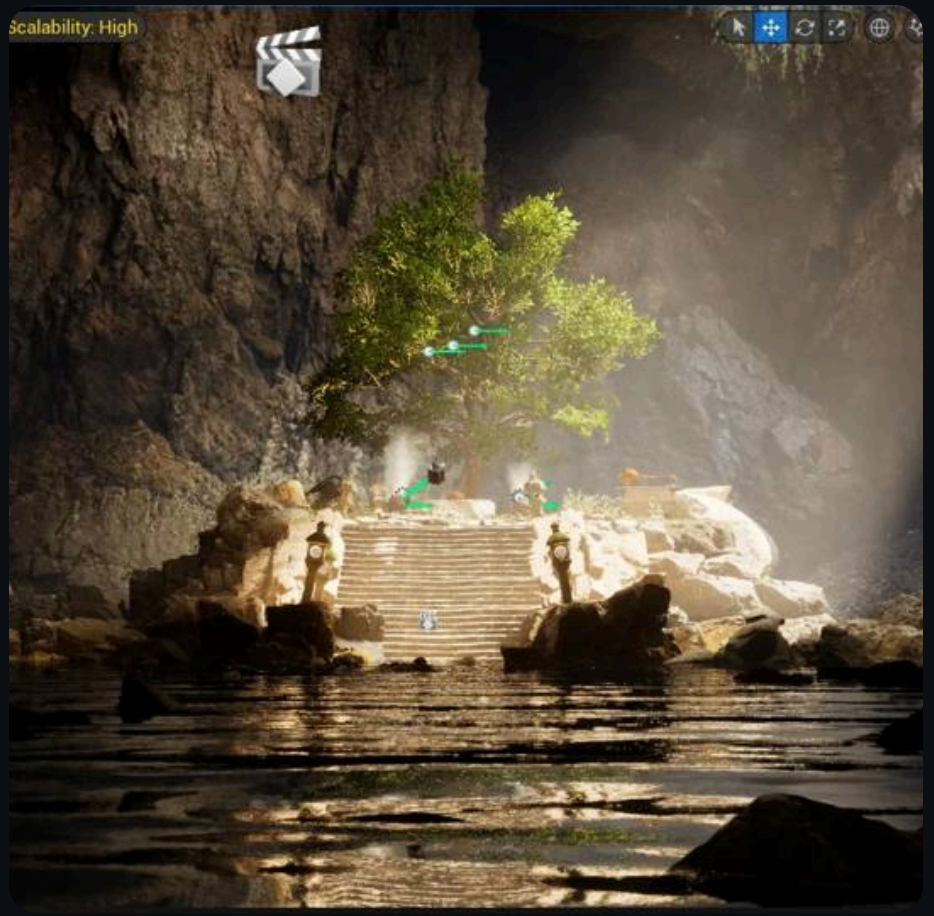

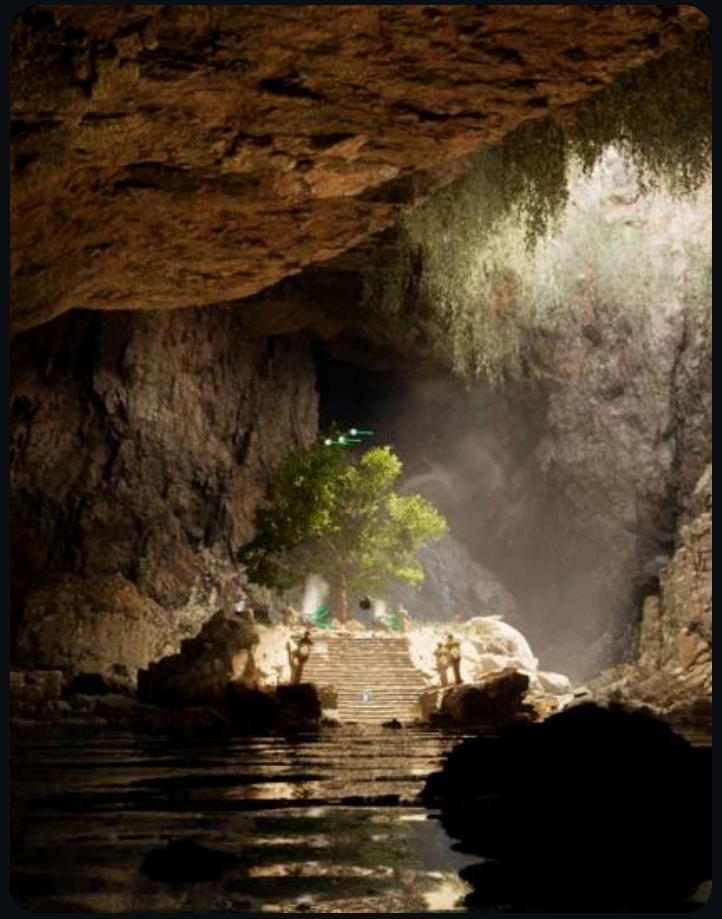

A realistic European riverside town for a cinematic short film, blockout to final set dressing using the client's Fab assets, with scenes prepared specifically for camera.

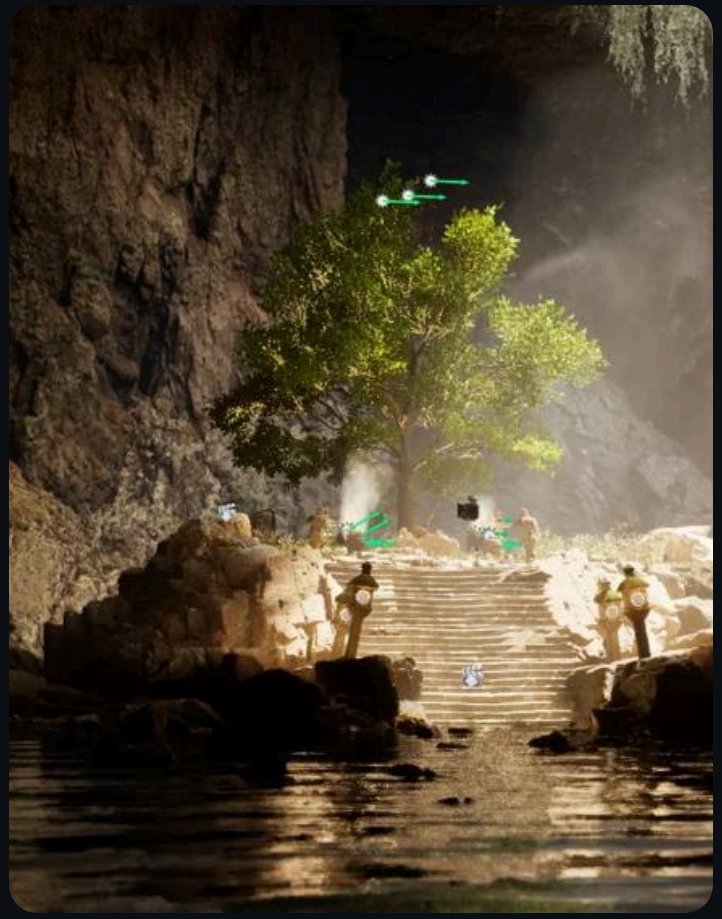

UE5 · Cinematic · Modular Assets

HIDDEN CAVE

O-SENS STUDIO · UE5

A cave environment built for cinematic shots, blockout to final set dressing with Quixel Megascans, focused on composition and lighting rather than gameplay.

UE5 · Level Design · Environment Art

ECHOES BEYOND THE HILL

SOLO · UE5

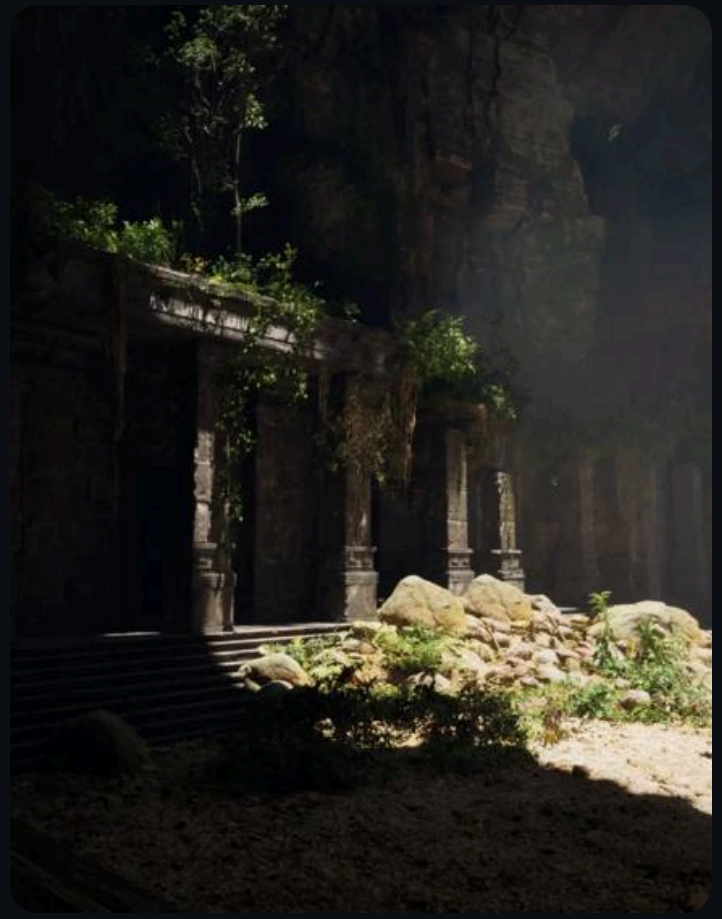

A 2D platformer built in Unreal Engine 5, focusing on level design, Blueprint gameplay systems, and a polished gameplay experience.

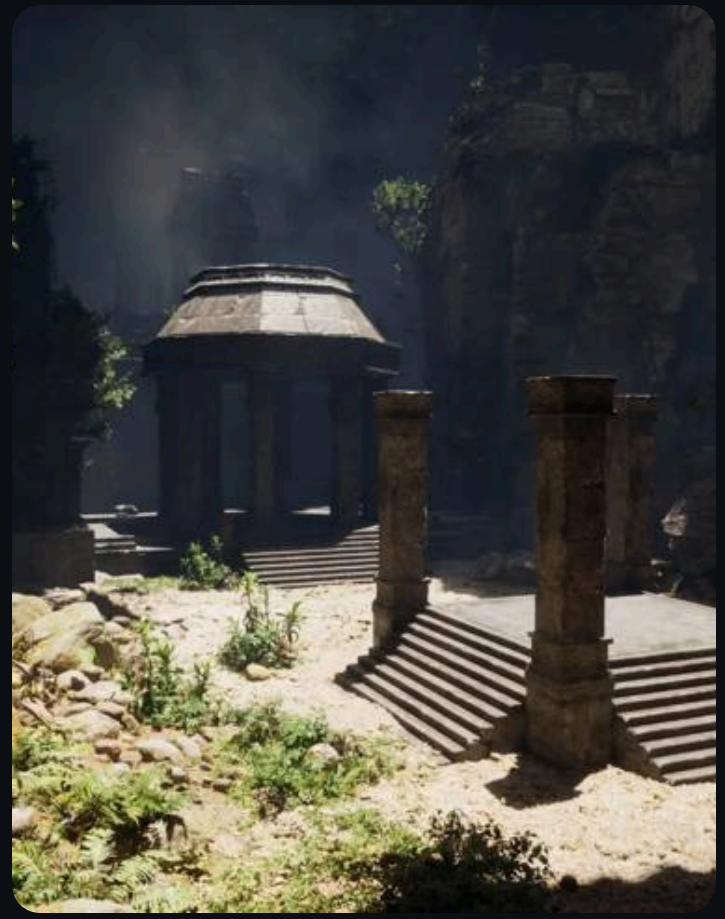

UE5 · Blueprints · Pixel Art · Boss Fight

FORGOTTEN TEMPLE

KITBASH3D LUMINARA CHALLENGE · UE5

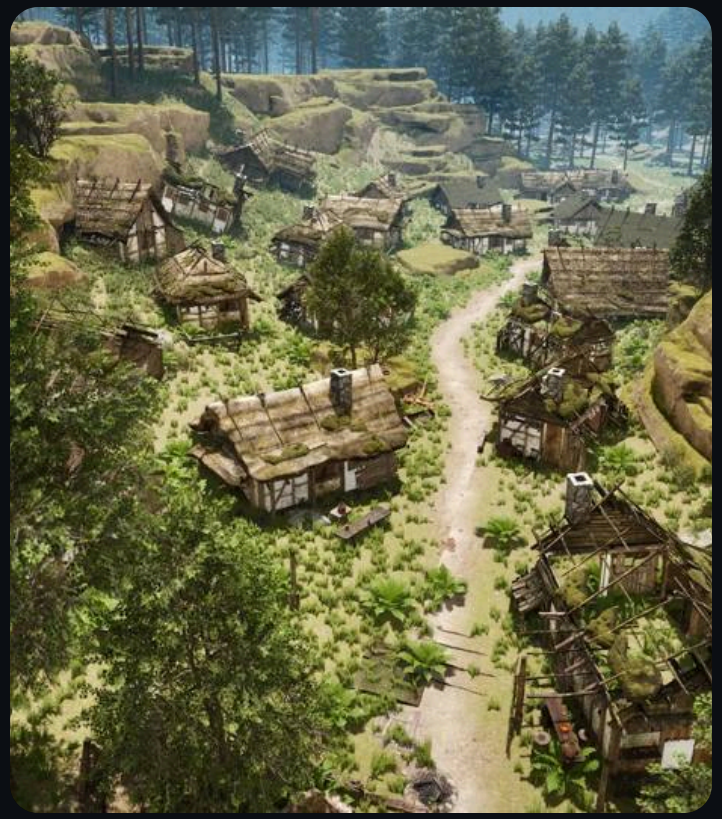

An ancient temple environment, blockout to final set dressing blending the Luminara kit with Quixel Megascans, built for cinematic presentation.

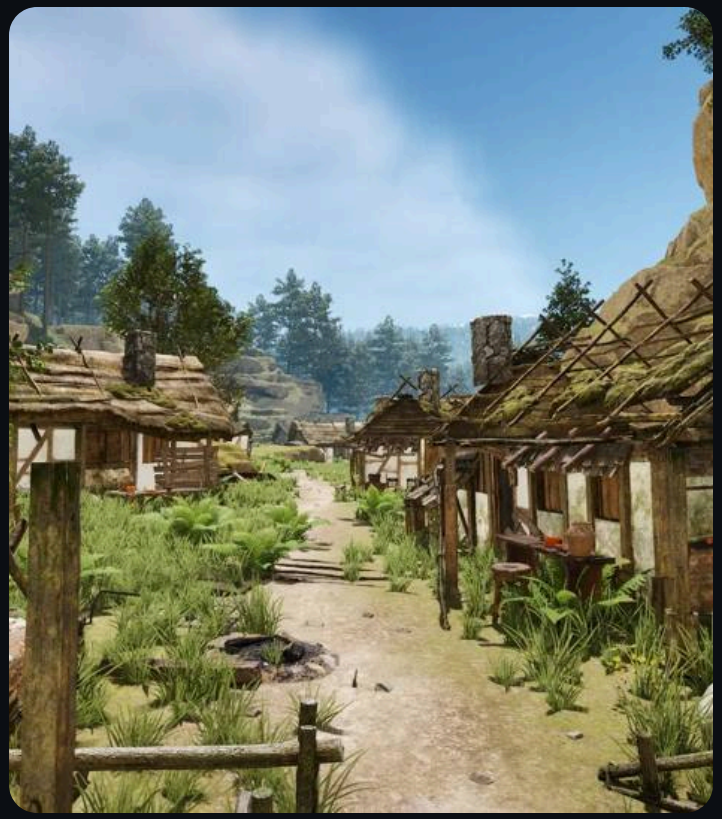

UE5 · Environment Art · KitBash3D · Megascans

VILLAGE ENVIRONMENT

O-SENS STUDIO · LEVEL DESIGNER / ENVIRONMENT ARTIST

A realistic village for an in-development project, blockout to final set dressing with Quixel Megascans, balancing visual style against the gameplay it needed to support.

UE5 · Environment Art · Megascans · Set Dressing

HOSPITAL ESCAPE (IN DEVELOPMENT)

SOLO DEVELOPER · UE 5.7 (C++ AND BLUEPRINTS)

A goofy online co-op game for up to 4 friends. Co-op comedy and physics party game, currently in active development.

UE5 · C++ · Blueprints · Online Co-op
